The University Wins the Prince Mohammad Bin Fahd University Award for Best Scientific Production

https://qu.edu.sa/d_news/3556

The university received the award for the best scientific production within the "Prince Mohammad Bin Fahd University Award", which was organized by the General Secretariat of the Association of Arab Universities, on Wednesday morning, 5/6/2024, at the headquarters of the League of Arab States in the Arab Republic of Egypt, as this award is one of the most important awards that encourage scientific research in Arab universities. The award was received by His Excellency the President of the University, Prof. Dr. Muhammad bin Fahd Al-Sharekh, who expressed on this occasion his thanks and gratitude to the Custodian of the Two Holy Mosques King Salman bin Abdulaziz and His Royal Highness Prince Mohammed bin Salman, Crown Prince and Prime Minister - may God protect them - for the unlimited support for all sectors in the Kingdom in general, and for the education sector in particular, stressing that the university's winning this award is one of the results of this support, and he also thanked His Excellency the Minister of Education, Mr. Yousef bin Abdullah. Building on his support and the facilities received by Qassim University that will help it achieve its goals. Al-Sharekh explained that Prince Mohammad Bin Fahd University plays an important and major role in encouraging researchers by providing such awards that encourage creativity and excellence in the field of scientific research, pointing out that everyone knows that such awards have a great impact on the hearts of researchers, as they develop the spirit of competition, enhance their research capabilities and encourage them to continue innovation and excellence, and this is beneficial to the field of scientific research. The President of Qassim University pointed out that the university is proceeding according to its strategic plan that it has drawn, and one of its most important goals is to strengthen the research identity, and improve applied research and innovation to meet the requirements of sustainable development, as the university has taken successful steps towards this important goal, explaining that the university's victory today with the best scientific production in scientific research and other awards it has obtained or what its employees have achieved in the field of scientific research confirms that the university is taking steady steps to achieve its goals, stressing that the university is determined and proceeding in achieving its major strategic objectives, the most important of which are related to research and innovation.

[Qassim University renews its cooperation with Huazeng Agricultural University of China](https://www.qu.edu.sa/content/news/139)

<https://www.qu.edu.sa/content/news/139> [1]

Qassim University renewed the service contract with Huazheng Agricultural University in China, where the contract was signed on behalf of His Excellency the President of the University, Prof. Dr.

Abdulrahman bin Saleh Al-Wasil, Vice President for Graduate Studies and Scientific Research, and from the Chinese side, the Rector of the University, Prof. Dr. Ding Xuxin, in the presence of Prof. Dr. Abdulrahman Abakhail, supervisor of international cooperation, Dr. Khaled Al-Harbi, Dean of the College of Agriculture and Veterinary Medicine, Dr. Abdullah Al-Suhaim, Vice Dean of the College and a number of employees of Huazeng University.

The two sides discussed the prospects of cooperation between the two universities and important issues in the agricultural aspect of the two countries and ways to benefit from this close relationship in developing the research, scientific and academic aspects in the Faculty of Agriculture and Veterinary Medicine.

For his part, Dr. Al-Wasil stressed the importance of activating this contract and preparing a timetable for the activities and programs required to be implemented during the two-year contract period, pointing out that the university is interested in activating international cooperation with the most prominent prestigious universities in various medical, engineering, agricultural and other fields, hoping that this agreement will achieve the desired goals.

The supervisor of international cooperation at the university, Dr. Abdul Rahman Abalkhail, stressed that the depth of cooperation and interaction between the two universities in the first version of the contract encouraged the renewal of cooperation between them, stressing that cooperation with distinguished universities in various fields will reap many benefits from the university that would develop the academic, research and scientific aspects, appreciating His Excellency the President of the University and the university vice-rectors for their support for the process of international cooperation. He pointed out that the cooperation between the two universities includes holding training workshops and allowing university students to complete their postgraduate studies at Huazeng University, in addition to activating the student exchange program between the two universities in addition to conducting joint scientific research.

It is noteworthy that the university delegation was briefed on a number of research centers within Huazeng University, and they also visited the Saudi Cultural Attaché in Beijing, during which they met with the Cultural Attaché, Dr. Saleh bin Ibrahim Al-Qassumi, and a number of the attaché's employees, in which they discussed the conditions of scholarship students and ways of communication with Chinese universities to enhance academic relations and how to benefit from them in the academic, scientific and research aspects.

Includes developmental and advisory aspects of the Faculty of Agriculture and Veterinary Medicine

Dr. Ibrahim Al-Omar signs a cooperation agreement between the university and Michigan State University, USA

Media Center :

The Vice President of the University, Prof. Ibrahim bin Saleh Al-Omar, signed a cooperation agreement with Michigan State University, which was represented by the Vice President of the University,

Professor John Yoat, last Thursday morning, 30/4/1436 AH corresponding to 19/2/2015 AD at the university's headquarters in East Lansing.

The contract between the College of Agriculture and Veterinary Medicine at the university and its counterpart, the College of Agriculture and Natural Resources at the University of Michigan, includes many advisory and developmental aspects of the programs, academic units, curricula and human cadres in the college, in addition to the aspect related to academic accreditation through reviews of all college programs and its various units and periodic reports.

The signing ceremony was attended by the delegation of Qassim University, represented by the General Supervisor of the International Cooperation Department, Dr. Abdulrahman Al-Muhanna Abalkhail, the Dean of the College of Agriculture and Veterinary Medicine, Dr. Khalid bin Bani Al-Harbi, and the Vice Dean for Quality and Development, Dr. Abdullah bin Suleiman Al-Suhaim, in addition to a number of employees of the College of Agriculture at the University of Michigan.

* Dr. Luana Simon: Universities are united by optimal values and we are happy with the ambitious partner who makes the difference

The Vice President of the University, Dr. Ibrahim Al-Omar, and the university delegation met with the President of Michigan State University, Professor Luana Simon, before the signing ceremony, where she welcomed them and presented an overview of the University of Michigan, expressing her happiness with such a partnership, which she hoped would be fruitful.

The head of the university delegation also reviewed the most prominent achievements of Qassim University and its faculties and departments before the two sides exchanged commemorative shields between them.

For her part, the President of the University of Michigan confirmed in a press statement that international universities usually share optimal values among themselves, and this is one of the directions they undertake as educational institutions.

She went on to say: We are always at the University of Michigan looking for a good partner, especially partners who aspire to make a difference with regard to important issues in this century and urgent to the societies of the world, and this is what we have seen from Qassim University.

Luana Simon also pointed out that the participation of others is not through short-term individual projects, but through partnerships that are diverse in energies and capabilities and extend for a long time and sensing the outstanding issues of the world, not only local issues that we must go beyond and this is the real value of such strategic partnerships that must be done so that everyone learns from the other.

* Dr. Al-Omar: Partnership with a world-renowned university is a qualitative addition to enrich and develop programs and curricula

The Vice President of the University, Prof. Dr. Ibrahim bin Saleh Al-Omar, spoke after the signing ceremony in a press statement to the media, in which he considered that the partnership with a prestigious university globally such as the University of Michigan, USA, is an important step in a series of steps taken by the university in this direction, hoping that the partnership between the faculties of agriculture in the two universities will achieve the desired goals and that this will benefit the college's march, students and employees in general.

He added: "International cooperation at the university is an important strategic goal that the university is keen to support in order to raise its level and document it through signing agreements

and alliances, building important partnerships, and consolidating them in the scientific, academic and research fields."

He also stressed that international cooperation between international universities - at the present time - is one of the most important cultural and knowledge standards by which the development of societies is measured, and the extent to which the services of educational institutions rise to high levels of global competitiveness in the tracks of science, knowledge and research.

He noted the interest of the Ministry of Education in supporting various aspects of international knowledge and cultural cooperation between Saudi universities and their counterparts from international scientific institutions in various sciences and knowledge, through the establishment of the General Administration for International Cooperation within its general structure and supporting it with various human, material, and technical capabilities in order to build bridges of cooperation with various countries of the world distinguished by knowledge. And focusing on distinguished international universities in the world, appreciating His Excellency the President of the University for his care and support for everything that would improve the university's march.

* Dr. Abalkhail: International cooperation with international institutions achieves academic, scientific and research addition

The supervisor of the Department of International Cooperation and Scientific Societies at the university, Prof. Dr. Abdulrahman bin Abdullah Al-Muhanna Abalkhail, pointed out that the Department of International Cooperation is making great efforts to develop international cooperation activities between the university and its counterparts around the world, specifically with universities that can achieve scientific, research and academic addition in general.

Dr. Abalkhail said that the Department of International Cooperation seeks to achieve a number of goals by building bridges of cooperation between Qassim University and international scientific institutions in a way that contributes to achieving the university's vision, in addition to developing mechanisms for scientific cooperation with distinguished universities with the aim of developing and continuously updating the university's programs and curricula, and working to enhance opportunities to benefit from international agreements in the educational fields. This is what this agreement seeks with the University of Michigan in America for the benefit of the College of Agriculture and Veterinary Medicine.

* Dr. Al-Harbi: Our goal is to study the current situation of the Faculty of Agriculture and submit an integrated development proposal

The Dean of the College of Agriculture and Veterinary Medicine, Dr. Khalid bin Bani Al-Harbi, pointed out that the agreement with a prestigious university such as the University of Michigan comes within the framework of the college's desire to study the current situation of the college and submit an integrated development proposal through a field visit to a team of specialists in the College of Agriculture and Natural Resources at the University of Michigan to the college during the next period, pointing out that the agreement includes a number of positive aspects for the college through the establishment of training courses for faculty members and technicians. In addition to seeking to enhance cooperation in participating in joint scientific research between faculty members in the two colleges by identifying aspects and areas of research interests and reviewing proposals and funding opportunities for these researches and publishing them.

Many aspects of development, consulting, quality and academic accreditation, hoping to achieve the desired goals, God willing, in order to upgrade the Faculty of Agriculture and Veterinary Medicine at the university.

* Dr. Al-Suhaim: The agreement includes a review of study plans, curricula and all academic aspects

The Vice Dean of the College of Agriculture and Veterinary Medicine for Quality and Development, Dr. Abdullah Al-Suhaim, explained that the cooperation with the College of Agriculture and Natural Resources at the University of Michigan includes reviewing study plans, curricula and all academic aspects of the programs in a way that contributes to achieving comprehensive and international quality standards, and this comes within the framework of the college's efforts to develop curricula and programs, and thus achieve quality and academic accreditation in the near future, God willing.

· The University of Michigan, represented by the College of Agriculture and Natural Resources, held a dinner party last Thursday evening in one of the state hotels in celebration of the university delegation, attended by a number of college leaders.

· The delegation's visit included a field tour that included visiting many of the university's academic and investment projects and the most prominent landmarks of the state, including the Islamic Center in Michigan.

The University Wins the Blackboard International Award for Excellence in Leading Change for the Year 2022

<https://www.qu.edu.sa/content/news/2771> [3]

The university, represented by the Deanship of E-Learning and Distance Education, received the Blackboard International Award in "Excellence in Leading Change for the Year 2022", from the Blackboard Global Foundation in the United States of America, which is awarded to institutions that have developed their practices related to e-learning and educational technologies in a way that contributes to improving learning outcomes, student performance or academic progress, as this award is classified as the highest international awards in the field of e-learning and educational technologies, for universities and educational institutions that have used Blackboard solutions. In educational innovation through non-traditional initiatives that help develop the university educational environment to achieve measurable results on the scope of university teaching and learning.

Qassim University was chosen to receive this award in recognition of the university's contributions to developing and modernizing the mechanisms of using and employing e-learning system tools in improving the educational process and solving the obstacles associated with it through innovative non-traditional solutions based on Blackboard system tools, which contributed to increasing the efficiency of learning and developing its delivery mechanisms.

For his part, the Dean of the Deanship of E-Learning and Distance Education, Dr. Saad bin Mubarak Al-Dosari, explained: "This award aims to support innovation and excellence in the community of e-learning practices through the Blackboard system worldwide, by studying the practices and

experiences of many international universities in the United States, Europe, Asia and Africa, and selecting and honoring the best of those experiences during the year.

Al-Dosari added, "The most prominent developmental contributions of the university, through which it was nominated for this award, were the employment of the e-learning management system in graduate studies to facilitate communication methods between the professor and the researcher, and the use of learning management system tools in the implementation of academic advising programs for students, as well as the establishment of electronic platforms through the Blackboard system to provide and manage various student activities, whether cultural, scientific, social, artistic, religious, and other activities.

He pointed out that the university has been active in providing platforms dedicated to providing electronic tests for all college students on the Blackboard system, integrating electronic library services on it to provide electronic library services to university employees on the Blackboard platform, as well as providing virtual platforms for faculties of human medicine in the form of virtual educational medical clinics open to each specialty, in addition to allocating electronic platforms for educational communication for each college through the Blackboard system, and enabling colleges to communicate quickly and comprehensively with all their students through this system.

Al-Dosari said that the university has worked to provide electronic platforms through the applications and tools of the Blackboard system to hold discussions of the scientific research plan "Seminar", discuss scientific theses (PhD - Master), employ the system's tools in organizing various educational events "scientific seminars, learning forums, scientific conferences", and use its various applications in providing programs and training courses remotely, in addition to establishing electronic platforms for holding meetings of committees, departments and college councils, and employing its tools in providing direct live technical support services to students. And professors, and the availability of the techniques of this system in the service of the community by providing all educational and training services to the local community through the tools of the system, and the university is distinguished by its pioneering experience in developing and teaching full-level courses through the Blackboard system.

The University Signs Two Cooperation and Understanding Agreements within its Participation in the International Conference on Education

<https://www.qu.edu.sa/content/news/2740> [4]

The agreement was signed by His Excellency the Vice President for Planning, Development and Quality, Prof. Khalid Bani Al-Harbi, along with Prof. Dr. Marzan bin Awadh Al-Shahrani, Vice President of King Khalid University for Development and Quality, in the presence of His Excellency the Vice President for Educational Affairs, Dr. Muhammad Al-Sharekh, the Vice President for Graduate Studies and Scientific Research, the Dean of the Deanship of Development and Quality, Dr. Bandar Al-Mutairi, Dr. Salem Al-Qarni, Dean of Development and Quality at King Khalid University, and Dr. Yasser Asiri, General Supervisor of Agreements and Partnerships at King Khalid University.

The terms of this memorandum include enhancing fruitful cooperation between the two universities in advisory services, training services, quality and institutional and program academic accreditation, as well as benefiting from performance indicators, preparing external benchmarking and other areas of cooperation between the two parties.

Qassim University signs a cooperation agreement with the American College of Clinical Pharmacy.

<https://www.qu.edu.sa/content/news/282> [7]

Includes developmental and advisory aspects of the Faculty of Pharmacy at the university

Qassim University signs a cooperation agreement with the American College of Clinical Pharmacy.

The Vice President of Qassim University for Graduate Studies and Scientific Research, Prof. Dr. Abdul Rahman bin Saleh Al-Wasil, signed a cooperation agreement with the College of Clinical Pharmacy

American. American College of Clinical Pharmacy (ACCP)

Which was represented by the President of the College, Professor Mike Maddox, at the college's headquarters in Kansas, USA.

The contract between the College of Pharmacy at Qassim University and its counterpart, the American College of Clinical Pharmacy, includes many advisory and developmental aspects of programs, academic units, curricula and human cadres in the college, in addition to the aspect related to academic accreditation through reviews of all college programs and its various units and periodic reports.

The signing ceremony was attended by the delegation of Qassim University, represented by the General Supervisor of the International Cooperation Department, Dr. Abdul Rahman Al-Muhanna Abalkhail, the Dean of the College of Pharmacy, Dr. Mansour bin Saleh Al-Shraideh, the Vice Dean for Educational Affairs, Dr. Majid bin Muhammad Al-Jarallah, and Mr. Abdullah Al-Muqbel, the supervisor of financial and administrative affairs in the International Cooperation Department, in addition to a number of employees of the American College of Clinical Pharmacy.

The President of the American College of Clinical Pharmacy received the delegation of Qassim University at the college's headquarters before the signing ceremony, where he welcomed the university delegation and gave them an overview of the American College of Clinical Pharmacy and its communication with educational bodies and pharmaceutical organizations around the world and the partnerships it built with them, expressing his happiness with such a partnership, which he hoped would be fruitful.

The head of the university delegation also reviewed the most prominent achievements of Qassim University and its faculties and departments before the two sides exchanged commemorative shields.

For his part, Professor Mike Maddox confirmed in a press statement that the American College of Clinical Pharmacy is looking for a good partner, especially partners who aspire to make a difference with regard to important issues in this century that are urgent to the societies of the world, and this is what we have seen from Qassim University.

He also pointed out that the participation of others is not through short-term individual projects, but through various partnerships in energies and capabilities that extend for a long time that enables the development and implementation of plans in the field of developing pharmaceutical education and its fields, and this is the real value of such strategic partnerships that must be done so that everyone learns from the other.

After the signing ceremony, the Vice Dean of Qassim University for Graduate Studies and Scientific Research, Prof. Dr. Abdul Rahman bin Saleh Al-Wasil, made a press statement to the media in which he considered that the partnership with a prestigious college globally, such as the American College of Pharmacy, is an important step in a series of steps taken by the College of Pharmacy at Qassim University in this direction, hoping that the partnership between the two colleges will achieve the desired goals and that this will benefit the college's march, students and employees in general.

He added: International cooperation at Qassim University is an important strategic goal that the university is keen to support in order to raise its level and document it through signing agreements and alliances and building important partnerships, and consolidating them in the scientific, academic and research fields.

He also stressed that international cooperation between international universities at the present time is one of the most important cultural and knowledge standards by which the development of societies is measured, and the extent to which the services of educational institutions rise to high levels of global competitiveness in the tracks of science, knowledge and research.

He noted the interest of the Ministry of Education in supporting various aspects of international knowledge and cultural cooperation between Saudi universities and their counterparts from international scientific institutions in various sciences and knowledge, through the establishment of the General Administration for International Cooperation within its general structure and supporting it with various human, material, and technical capabilities in order to build bridges of cooperation with

various countries of the world distinguished in knowledge and focus on distinguished international universities in the world, appreciating His Excellency the President of the University for his care and support for everything that would advance the university's march.

The supervisor of the Department of International Cooperation and Scientific Societies at the university, Prof. Dr. Abdul Rahman bin Abdullah Al-Muhanna Abalkhail, pointed out that the Department of International Cooperation is making great efforts to develop international cooperation activities between the university and its counterparts around the world, specifically with universities that can achieve scientific, research and academic addition in general.

He said: The Department of International Cooperation seeks to achieve a number of goals by building bridges of cooperation between Qassim University and international scientific institutions in a way that contributes to achieving the university's vision, in addition to developing mechanisms for scientific cooperation with distinguished universities with the aim of developing and continuously updating the university's programs and curricula, and working to enhance opportunities to benefit from international agreements in the educational fields, which is what this agreement seeks with the American College of Clinical Pharmacy for the benefit of the College of Pharmacy at Qassim University.

The Dean of the College of Pharmacy, Dr. Mansour bin Saleh Al-Shraideh, pointed out that the agreement with a prestigious college such as the American College of Clinical Pharmacy comes within the framework of the college's desire to study the current situation of the college and submit an integrated development proposal through a field visit to a team of specialists during the coming period, pointing out that the agreement includes:

- Assist in the development and restructuring of the departments of the college.
- Training faculty members in different disciplines.
- Exchange of experiences in the development of academic work fields.
- Provide the necessary expertise and reports in the field of academic accreditation.
- Review curricula and teaching methods.
- Enhancing cooperation in participating in joint scientific research between faculty members in the two colleges.
- Providing admission to fellowship and residency programs for teaching assistants, lecturers and college scholarships.
- Providing admission to master's and doctoral programs for teaching assistants, lecturers and college scholarships.
- Assist in the development of master's and doctoral programs that the college wishes to offer.

He hoped that the desired goals would be achieved, God willing, in order to upgrade the College of Pharmacy at Qassim University.

The Vice Dean of the College of Pharmacy for Educational Affairs, Dr. Majid bin Muhammad Al-Jarallah, explained that cooperation with the American College of Clinical Pharmacy includes reviewing study plans, curricula and all academic aspects of the programs in a way that contributes to achieving comprehensive and international quality standards, and this comes within the framework of the college's efforts to develop curricula and programs, and thus achieve quality and academic accreditation in the near future, God willing.

The Minister of Education witnesses the signing of a cooperation agreement in medical education between Qassim and Shaqra Universities

<https://www.qu.edu.sa/content/news/350> [8]

His Excellency the Minister of Education, Prof. Dr. Ahmed bin Muhammad Al-Issa, witnessed the signing of a memorandum of cooperation in medical education between Qassim University and Shaqra University on Thursday morning at His Excellency's office at the Ministry's headquarters in Riyadh.

The agreement was signed by His Excellency the Rector of Qassim University, Prof. Dr. Abdulrahman bin Hamad Al-Dawood, and His Excellency the Acting Rector of Shaqra University, Dr. Adnan bin Abdullah Al-Shiha.

The cooperation agreement includes the desire of Shaqra University to benefit from the excellence of Qassim University in establishing medical and health colleges, designing distinguished study plans and programs, following up the implementation of those plans and programs, and transferring those experiences to ensure the establishment and development of medical and health colleges at Shaqra University.

The memorandum of cooperation includes Qassim University designing programs and study plans for medical and health colleges, following up the implementation of those programs and study plans, providing educational services to cover the shortage of educational cadres and transferring expertise and experience, in addition to developing and training faculty members by holding training courses and workshops, providing advisory services regarding contracting with faculty members in medical and health colleges, and providing advisory services regarding equipment and laboratories needed by medical and health colleges to ensure Obtaining the best equipment and laboratories that serve the study plans and programs, as well as providing academic services to students of medical and health colleges during the establishment period, and providing advisory services in the field of academic management of medical and health colleges.

His Excellency the Minister of Education blessed this agreement, wishing Saudi universities success in order to contribute to building the human being of this generous country.

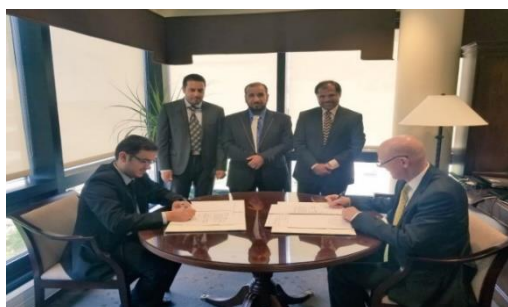

For his part, His Excellency the Rector of Qassim University, Dr. Abdulrahman Al-Dawood, indicated that Saudi universities have permanent partnerships to advance their academic and research career in line with the Kingdom's Vision 2030 and the national transformation led by our wise leadership, pointing out that this agreement will contribute to the development of medical education outputs, stressing that the university is always happy and proud to provide its services in everything that contributes to the advancement of the country in various fields.

The Acting Director of Shaqra University, Dr. Adnan Al-Shiha, stressed that the agreements and partnerships between educational institutions are healthy scenes that contribute to supporting the process of university education in the Kingdom in line with Vision 2030, stressing that the excellence of health colleges at Qassim University and their use of experiential education contributed to our desire for the university to benefit from their rich experience, wishing that the agreement would achieve the desired goals.

It is noteworthy that Qassim University provides advisory services and studies to educational institutions and other bodies in various fields through the Institute of Studies and Consulting Services at the university.

College of Pharmacy signs a service agreement with Virginia Commonwealth University

<https://www.qu.edu.sa/content/news/921> [9]

The

university, represented by the College of Pharmacy, recently signed a service agreement with Virginia Commonwealth University, within the framework of the university's keenness to benefit from the expertise of the American University, the enrollment of teaching assistants and lecturers in the graduate program, and mutual cooperation between the two parties.

The agreement with the university, which ranks 17th among the universities of the United States of America in the specialty of pharmacy, includes many services in the training and education programs of teaching assistants and lecturers, namely: the Doctor of Pharmacy program, residency programs in pharmaceutical sciences, and fellowship programs in pharmaceutical sciences, where 5 seats will be offered for each program, and the contract also includes training at the American University and its affiliated hospitals, in addition to providing lectures and courses for undergraduate students, and specialized development programs for faculty members. Teaching, and it was also agreed to cooperate in the field of scientific research, and other areas of interest to scholars and researchers in the field of pharmacy.

The agreement signed between the two parties is valid for a period of 6 years, where the specialized residency programs are scheduled to be based on ambulatory care, critical care, infectious care, oncology and pharmacy systems, while the fellowship programs were agreed on clinical research, geriatric study, pharmacoeconomics research, products in the fields of health, and other areas agreed upon by the two parties in the future.

It is noteworthy that the College of Pharmacy at the university has recently obtained academic accreditation from the National Center for Academic Accreditation and Assessment, which aims to support the quality of educational institutions in the Kingdom, which included the Doctor of Pharmacy program of the college, which is the first government pharmacy college in the Kingdom to obtain this full accreditation until 2025, and it is also the first pharmacy college in the Kingdom that combines the American international accreditation certificate and the national accreditation of the Doctor of Pharmacy program, and this step came within the efforts of The university and its continuous endeavor to develop its cadres, and benefit from the expertise of major universities, in line with its future plans to develop educational content and raise the level of education in the Kingdom.

Cultural Attaché in America: The university's agreement with a prestigious university such as Michigan is a positive step for the development of the Faculty of Agriculture

<https://www.qu.edu.sa/content/news/69> [10]

He congratulated the university for its institutional accreditation. And thanks to her for informing the attaché. Saudi Cultural Attaché in America:

The university's agreement with a prestigious university such as Michigan is a positive step for the development of the Faculty of Agriculture

Dr. Al-Issa: Coordination of agreements with the attaché avoids Saudi universities and authorities problems!!

Media Center:

The Cultural Attaché at the Embassy of the Custodian of the Two Holy Mosques in Washington, Dr. Mohammed bin Abdullah Al-Issa, stressed the importance of coordination with the Attaché in the event of a desire to sign agreements and contracts for cooperation with educational institutions or others in the United States of America, pointing out that this would protect Saudi universities or other parties providing this type of partnership, pointing out that the Attaché studies these agreements very carefully through legal specialists to avoid any obstacles or material and other problems that may occur. In it, Saudi institutions, whether governmental or private, stressing that this role is one of the aspects played by the Saudi Cultural Attaché as part of its duty towards everyone who represents the country in various fields.

This came in a press statement after meeting with the university delegation headed by the Vice President of the University, Prof. Dr. Ibrahim bin Saleh Al-Omar and his accompanying delegation, where Dr. Al-Issa praised the initiative of Qassim University in informing the attaché of the cooperation contract with Michigan State University of America before signing it, pointing out that the attaché is keen to provide aid and advice to Saudi universities and other sectors wishing to this type of cooperation with American bodies.

The Saudi Cultural Attaché praised the step of Qassim University in signing such an agreement with a prestigious university such as Michigan State University, which is one of the prestigious universities in the United States, pointing out that it is a good agreement and will serve the university, God willing, and provide the desired benefit to the programs of the College of Agriculture and Veterinary Medicine, academics and faculty members, congratulating the university for its achievements and developmental steps, which culminated in its institutional accreditation by the National Commission for Academic Accreditation and Assessment as the third Saudi public university. He wished Saudi universities more successes in light of the unlimited support that higher education institutions find by the wise leadership.

The meeting of the cultural attaché with the university delegation was attended by the assistants of the attaché and a number of employees of the attaché, and the delegation was also briefed on a number of developmental steps in the attaché as a goal in serving male and female students, scholarship students and scholarship students in general.

The University Signs 16 Program Academic Accreditation Agreements with the Education Evaluation Commission
